- Heat draw will be managed December 10th at 17:30.
- Kart draw will be managed December 11th at 08:00 (semifinal and final excepted). You cannot ask for any other kart except if there are any technical malfunctions with it.
- Radio Communication with the driver is not allowed.

Qualification heats

- There will be five qualification rounds where the worst result can be withdrawn. Round 1 and 2 will be settled by best lap time (the driver who gets the best lap time within 8 laps wins). Round 3,4 and 5 will be settled by race position (the first driver who crosses the finish line after 12 laps wins).
- Before every qualification heat in round 3,4 and 5 there will be one qualification lap (flying lap) to determine the start position. Thereafter it will be 12 laps racing to the finish line.
- If two or more drivers get the exact same lap time, the driver who got it first will be prioritized.
- In round 3, 4 and 5 it is mandatory to take a long cut route twice in each heat. It is not allowed to do this on the first lap. You are allowed to take this route during "yellow flag" situation.
- If you make a false start or fail to do the "long cut" you will be penalized with a 5s time penalty for each fail.
- If a minor accident occur, there will be no yellow flags or lights. Instead, the race director will have the possibility to slow down all karts by remote. The race is still active so continue to push the throttle down. You are allowed to use the long cut route during this situation.

Updated May 18th, 2021

- If there occur any technical malfunctions with a kart or a large crash, the race will be stopped. The race will restart in an order that the race director finds most fair according to who/what caused the stop. If 75% of the race have been completed, we will freeze the heat and not make a restart.
- In case of unfair driving, you can get a 10s time penalty or be excluded from the heat. If you get excluded, you will be placed last in that heat and you cannot withdraw this result from the scoreboard. All drivers that are excluded will receive maximum points (8p).
- Bad behavior on or beside the track by any driver or audience can also lead to some type of penalty. We will for example not tolerate violence or bad language towards marshals, race director or other drivers.
- If you make an illegal overtake, you have to give up the position you gained to avoid a time penalty. (*Special flag will be used for this matter*). You are not allowed to use the long cut in order to give the position back.
- After each heat will, the top-three drivers get on the scale for a weight control. If any driver fail to reach 90kg (75kg for juniors), he/she will be excluded and placed last in that heat. The result cannot be withdrawn from the scoreboard.

Point scoring system

Finishing Position	Qual.	Semi.	Final
1 st	0	0	0
2 nd	2	3	4
3 rd	3	4.5	6
4 th	4	6	8
5 th	5	7.5	10
6 th	6	9	12
7 th	7	10.5	14
8 th	8	12	16

- After the five qualification rounds with the worst result withdrawn for each driver, we will have a complete scoreboard. The 24 best drivers (16 in the Junior category and 8 in the Master category) will be qualified to the semifinals.
- If we have two or more drivers with the same amount of points, we will decide the rank according to the final result, the semifinal result followed by the amount of wins, amount of second places and so on. If there still is a tie between any drivers, we will check the result from the latest heat. Finally, we will compare the drivers best lap times during the race weekend.

Appendix A

The starting grid and kart allocation for the final will be determined by a race-off (duels) explained below.

Before the final, we will have a rank based on the scoreboard. The best-ranked driver will duel against the worst ranked and so on as shown below:

Final:		
Driver 1		
Driver 8		
	Driver 1/8	
	Driver 4/5	
Driver 4		
Driver 5		
		Driver 1/4/5/8
		Driver 2/3/6/7
Driver 2		
Driver 7		
	Driver 2/7	
	Driver 3/6	
Driver 3		
Driver 6		

Every duel consists of two flying laps where the drivers' swift karts with each other after one of the flying laps. The lap times of these two flying laps will be added and the driver with the best time will qualify to the next round. The winning driver choose which kart he/she will bring to the next round. Excluded driver will get the remaining kart in the race and will start on position 5-8 depending on the results from the other duels. Example: If driver 3, 5, 7 and 8 are excluded from the first final round, Driver 3 will start the race from position 5 and so on.

Unfair behavior during this process, for example collecting dust/dirt before a kart swift, will be penalized with a loss in the actual duel.
